

CONNECT-UP™

DATA MANAGEMENT SYSTEM

Maximize the value of your data

Gregory J.
iConn Specialist
bioMérieux, Inc.

PIONEERING DIAGNOSTICS

Fully-connected data will help predict the future.

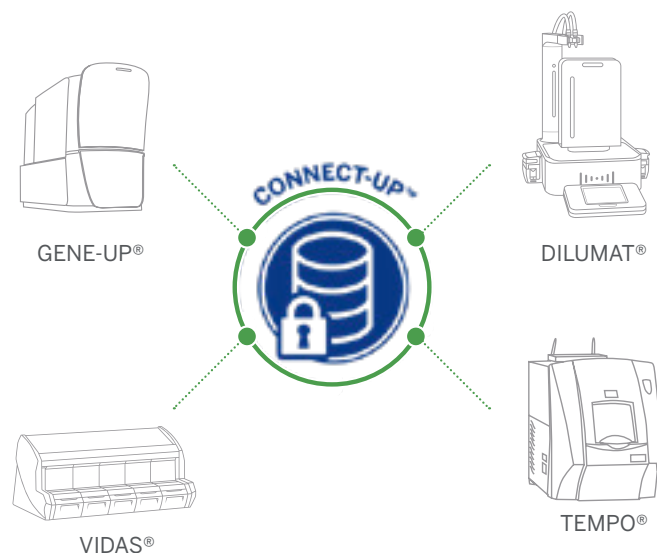

MONETIZE YOUR DATA & OPTIMIZE OPERATIONS

The new era of food safety demands better compliance and secure data to protect brands and consumer safety. CONNECT-UP™ is data management system that enhances the value of the data coming from your laboratory and simplifies workflow by connecting every step, from sample to decision. This ISO 17025-compliant software helps to provide quality data for fast decision making in operational departments and your supply chain. And it helps to predict problems before they happen, so you can transform your operations to proactive rather than reactive.

DIGITIZE YOUR DATA MANAGEMENT

- **1 barcode for 1 sample, from sample to report**
- **Real-time data**
- **Plug and play connection to bioMérieux platforms**
- **Rapid and Remote Implementation**
- **Paperless**

Detects, predicts, and prevents issues in REAL TIME.

1

Leverage traceability and be audit-ready with full laboratory automation and connectivity.

2

Fewer errors with predefined workflow and easy implementation.

3

Increase productivity and profitability with time management optimization.

“Management is happy because we are confident that we are audit-ready, we are saving money, and we are saving time.”

- Kristy Johnson, *Microbiology Manager*, **Monogram**

”

THE POWER OF CONNECTING AND DIGITIZING YOUR DATA

**Make decisions on-time
with better Data Integrity**

**Fluent connectivity among the
Lab, Quality, and Production**

**Leverage Traceability
to be Audit-Ready**

**Increase Productivity
& Profitability**

CONNECT-UP FEATURES

ESSENTIALS

- 2 concurrent user licenses
- Embedded drivers: Automated bidirectional communication
 - DILUMAT® EXPERT EVO
 - TEMPO®
 - VIDAS® PC
 - GENE-UP®
- Sample follow up
- Lab management KPI
- Out-of-stock email alerts
- Predesigned lab workflow
- Barcode & label management
- Out of specification email alert

COMPLIANCE

- Automatic Certificate of Analysis
- Sample review
- Audit trail
- Electronic signature

IMPLEMENTATION

- Easy & short implementation time
- 2 operational weeks
- Pre-defined workflow
- bioMérieux expertise combined with LabWare experience
- Minimal training required

AND MORE:

- Composite samples management
- Incubation module
- Inventory
- Instrument metrology
